

Foundation on the Environment and the Economy (CFEE). He was a member of the Pacific Council on International Policy and served as chair of the IBEW No. 47 Retiree Medical Trust Fund, along with being a trustee of the Cal-Nevada IBEW/NECA JATC Board.

As a member of the IBEW International Executive Council, Pat was a trustee on the IBEW Pension Benefit Fund and all funds of the International Brotherhood of Electrical Workers. In addition to those duties, he served on the National Employee Benefit Board (NEBB), which is the board of directors for the National Electric Benefit Fund (NEFB), National Electric Annuity Plan (NEAP), and the National Electric 401 K (NEFP). In June 2017, Pat was nominated California Veteran of the Year by the California State Assembly.

Pat holds a Bachelor's Degree in Organizational Management from Southern California College. He was married to his wife, Ellen, for 45 years prior to her passing in 2019 and recently married his current wife, Dianne. Pat has two daughters, two sons, and eleven grandchildren.

Madam Speaker, I ask my colleagues to join me in recognizing and thanking Mr. Patrick Lavin for his many years of outstanding service to electrical workers in Southern California and nationwide and for his exemplary leadership "keeping the lights on."

HONORING JENNIFER REDMOND AS IOWAN OF THE WEEK

HON. CYNTHIA AXNE

OF IOWA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, October 26, 2021

Mrs. AXNE. Madam Speaker, I rise today to honor Jennifer Redmond, the state executive director of Nebraska and Iowa for Susan G. Komen. Their mission is to save lives by meeting the most critical needs of their communities and investing in breakthrough research to prevent and cure breast cancer.

Susan G. Komen has invested in more than \$1.1 billion collectively in lifesaving breast cancer research since 1982. More than 1,200 Iowans seek help and information from Susan G. Komen every week, and all 99 counties in Iowa are served by Susan G. Komen breast cancer services.

All Iowans can get involved with Susan G. Komen through events and activities organized throughout the state, by becoming an individual advocate or by registering their workplace for volunteer programs, fundraising campaigns, and access to world-class breast cancer content. There are currently 1,786 people in Iowa who advocate for breast cancer rights with Susan G. Komen.

Jennifer and the team at Susan G. Komen also ensure everyone has access to quality screening, diagnosis, and treatment for breast cancer. Anyone who reaches out, no matter where they are in their breast cancer journey is welcome at Susan G. Komen.

Jennifer and her staff spend every day supporting organizations that provide vital services and research to Iowans and it is my pleasure to honor Jennifer Redmond as Iowan of the Week.

RECOGNIZING THE REDEDICATION OF THE TOWN OF TONAWANDA POLICE HEADQUARTERS AS THE "FRANK H. PFONNER PUBLIC SAFETY BUILDING"

HON. BRIAN HIGGINS

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Tuesday, October 26, 2021

Mr. HIGGINS of New York. Madam Speaker, today I rise to recognize the rededication of the Town of Tonawanda Police Headquarters as the "Frank H. Pfonner Public Safety Building," in honor of Police Officer Frank H. Pfonner. Officer Pfonner, the only Town of Tonawanda Police Officer to have been killed in the line of duty.

Frank was born in June of 1893 to George and Elisabeth Pfonner. He was raised on the Pfonner family farm, located where Military Road meets Knoche Road today. The path that once connected the house to the barns has become Ensminger Road in Tonawanda.

Frank was one of the first officers hired by the Town of Tonawanda Police Department. He became Constable for the Town, and during his years of service risked his life to protect those in Tonawanda on many occasions. In one instance, he incurred a gunshot wound to the head, but later returned to duty.

Frank would be killed in a hit-and-run incident while on his motorcycle, ending his watch over the Town of Tonawanda on April 8, 1923.

Frank had no children, but his commitment to service lived on through his family. His brother, Elmer G. Pfonner, would serve in the First World War. Upon his return, Elmer served as a Constable much like Frank. However, Elmer resigned when his parents became distraught at the thought of losing another son.

Elmer went on to have five children, who would have been Frank's nieces and nephews. Two of Frank's nephew served in the Korean War, and the youngest of the nephews would go on to have four children. As a symbol of the legacy of Officer Pfonner, the youngest of the children was named Frank H. Pfonner, after his great uncle.

Town of Tonawanda Supervisor Joseph Emminger, the Town Board, and Police Chief James Stauffer are to be commended for remembering the life and legacy of Officer Pfonner through rededication of the Town of Tonawanda Police Headquarters in his honor.

This tribute will serve as a lasting reminder of the great sacrifices made by Officer Frank H. Pfonner and all police past and present who risk their own lives to serve our communities.

HONORING THE INSTALLATION OF LAMONT REPOLLET AS PRESI- DENT OF KEAN UNIVERSITY

HON. ALBIO SIRE

OF NEW JERSEY

IN THE HOUSE OF REPRESENTATIVES

Tuesday, October 26, 2021

Mr. SIRE. Madam Speaker, today, I recognize and congratulate Lamont Repollet's installation as the 18th leader of Kean University. He has been a dear friend for many years, and I believe he is an excellent choice

to take on the role of President of Kean University.

Lamont Repollet has demonstrated a lifelong commitment to educating students in New Jersey. He started as a teacher and coach in an urban area, an experience we share and one that has informed his entire career. As a principal and then superintendent, he implemented many initiatives including those focused on closing the opportunity gap, increasing graduation rates, and creating new leadership and literacy programs.

He brought his dedication to equity and opportunity to the state level as Commissioner of Education and applied everything he learned in his prior roles toward improving our education system. He did this while tackling the immense challenge of restructuring student learning during the COVID-19 pandemic. Lamont Repollet has broken barriers as the first Black principal of Carteret High School, the first Black Commissioner of Education of the State of New Jersey, and now, the first Black president of Kean University, where he has deep ties. As an alumnus and former member of the Board of Trustees, he has knowledge of, and a commitment to, the students, faculty, and community.

Madam Speaker, I know that he will work hard to create new opportunities for students while creating an environment in which everyone can flourish. It is my great honor to recognize this milestone for Lamont Repollet and Kean University and I know that there are great things ahead.

IN SUPPORT OF H.R. 2119, THE FAMILY VIOLENCE PREVENTION AND SERVICES IMPROVEMENT ACT OF 2021

HON. TOM COLE

OF OKLAHOMA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, October 26, 2021

Mr. COLE. Madam Speaker, today, I voted in favor of H.R. 2119, the Family Violence Prevention and Services Improvement Act. It is important for our Nation to address the scourge of domestic violence, which affects far too many residents of our country, and I am disappointed that the legislation before the House today could not be written, and ultimately passed, on a bipartisan basis. Domestic violence transcend politics and does not discriminate based on political preference.

There are provisions in this legislation that are important to constituencies I represent. My home state of Oklahoma is home to some of the largest Tribal populations. I am pleased that H.R. 2119 provides increased resources to Tribal nations to fully respond to domestic violence in their communities. Specifically, H.R. 2119 increases the tribal set-aside for grant funding from 10 percent to 12.5 percent. This increased set-aside will improve technical assistance to Tribes, development of domestic violence prevention strategies, and implementation of community responses to reduce risk factors for family violence. Moreover, the implementation of a new emergency hotline dedicated to serving Indians affected by domestic violence will significantly benefit the Native American population.

Yet I also recognize that the bill voted on today has some very real problems. I have

concerns with several key provisions, which is why it is my hope that if the Senate passes its own version of this legislation, these troubled provisions could be eliminated in a conference between both chambers. If not, then I reserve the right to vote no on any vote on final passage.

RECOMMENDING THAT THE HOUSE
FIND STEPHEN K. BANNON IN
CONTEMPT OF CONGRESS

SPEECH OF

HON. DAVID N. CICILLINE

OF RHODE ISLAND

IN THE HOUSE OF REPRESENTATIVES

Thursday, October 21, 2021

Mr. CICILLINE. Madam Speaker, I rise in strong support of holding Steve Bannon in contempt of Congress for refusing to answer a Congressional subpoena and in support of truth, transparency, and the rule of law.

January 6 was one of the most heinous attacks on American democracy that our country has ever seen. We have mountains of evidence that these rioters, encouraged by and organized by some of our country's highest officials, intended to overthrow our democracy at the behest of Donald Trump.

We must get to the bottom of what happened, not only to hold these insurrectionists accountable, but to prevent something like this from ever happening again.

Steve Bannon clearly had inside knowledge of what was going to happen that day. He even said on January 5 that "all hell was going to break loose" on January 6. He has information that must be shared.

The January 6 commission is a bipartisan effort to get the truth.

This goes beyond party politics—this is about the safety and security of our democracy.

I urge all my colleagues to join me in voting to hold Steve Bannon in contempt for his refusal to comply with the Committee's subpoena. Vote for yes.

REMEMBERING MIMI LEVIN
LIEBER

HON. JERROLD NADLER

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Tuesday, October 26, 2021

Mr. NADLER. Madam Speaker, I rise today to celebrate the life of my good friend Mimi Levin Lieber, a beloved public servant and leader in early childhood education.

Mimi devoted her life to her mission of making literacy a right of all children, a passion that led her to launch Literacy Inc. (LINC), an organization in my district dedicated to providing children with a strong foundation of literacy early in life. Through her organization, Mimi was able to touch the lives of so many New Yorkers by taking an innovative community-based approach to learning that addressed the systemic inequalities in our education system.

Mimi believed that through reading, everything becomes possible. This conviction served her well while attending the University of Chicago for her Bachelor's and Master of

Arts Degrees and, later, training in London to become a pioneer in qualitative research. After completing a fellowship at Harvard's Graduate School for Education, she met her husband for life, Charles Lieber. Charles was a well-traveled, multi-lingual native of the Netherlands who fled the Nazi occupation of Belgium in 1940. Forty years later, he would go on to acquire the Hebrew Publishing Company, the oldest American publisher of Judaica.

After moving to New York in 1960, she and Charles raised four children on the Upper West Side. Mimi cherished being a mother and believed raising children was one of the most important, yet undervalued, roles in life. Mimi grew up in a cohesive Jewish community in Detroit, but she quickly became a true New Yorker who looked out for everyone in her community. She served on the synagogue board, Hebrew school board, the Jewish Board of Guardians, and Community Planning Board 7. While doing all this, Mimi, a trained sociologist, also founded Lieber Attitude Research which became one of the first firms to employ focus groups to help companies understand client thinking.

This public service and her sociology background led me to nominate her to the New York State Board of Regents, where she served New York students for 15 years. While on the board, she successfully lobbied politicians around the state to make critical investments necessary to turn young children in the five boroughs into learners for life. During her service, she became a breast cancer survivor and spoke openly about her illness when many would not. Mimi never viewed public service as a sacrifice; she believed in the power of community and viewed the ability to serve others as a privilege. One of her sons, Janno Lieber, continued her tradition of public service and currently serves as Acting Chair and CEO of New York's MTA. In her later years, she spent much of her time at her family's countryside retreat in Spencertown, New York and continued to serve on the board of LINC.

Her legacy reminds us that we must support and invest in our children's education from the earliest years, when it matters the most, and that universal literacy is critical to sustaining a healthy democracy. Mimi will truly be missed, and she has left her imprint on the thousands of readers she inspired through her advocacy. Mimi is survived by her children, grandchildren, and members of her LINC family. May her memory be a blessing.

NATIONAL SPINA BIFIDA
AWARENESS MONTH

HON. LUCILLE ROYBAL-ALLARD

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, October 26, 2021

Ms. ROYBAL-ALLARD. Madam Speaker, I rise today to recognize October as National Spina Bifida Awareness Month, and to pay tribute to the numerous individuals and their families across our country living with this condition.

Spina Bifida is the nation's most common, permanently disabling, birth defect compatible with life. According to the March of Dimes, about 1,645 babies are born with this condition in the United States each year, with its

prevalence being highest in the Hispanic population. Known as a neural tube defect, Spina Bifida stems from a hole in the spinal cord that occurs when the spinal column fails to close properly during development in the womb. As a result, this condition impacts virtually every major organ system in the body. Children born with Spina Bifida typically undergo dozens of surgeries before they become adults. Adults living with Spina Bifida face a myriad of physical and mental health conditions, as well as other challenges, such as unemployment and limited access to quality primary and specialty care.

Over the last three decades we have made significant strides in preventing this birth defect and managing the care of those born with this condition. In response to research showing the incidence of Spina Bifida could be reduced by up to 70 percent with the addition of folic acid in a woman's diet, the United States Public Health Service recommended that all women of childbearing years should take 400 micrograms of folic acid daily to prevent having a pregnancy affected by a neural tube defect. Based on this recommendation, I introduced the Folic Acid Promotion and Birth Defects Prevention Act, which was passed into law as part of the Children's Health Act of 2000. This Act authorized a program within CDC to provide professional and public education for folic acid awareness.

In 1998, the U.S. Food and Drug Administration required that folic acid be added to enriched grain products such as bread, pasta, rice, and cereal to increase the likelihood that women would have sufficient folic acid in their diet before becoming pregnant. And in 2016, after years of advocacy with the FDA and the corn masa industry, folic acid fortification of corn masa flour was finally begun to target Hispanic communities that consume more corn masa products than grains. But there is still much work to be done to ensure adequate consumption of this critical nutrient that can neural tube defects.

There are currently an estimated 166,000 individuals in the United States living with Spina Bifida, approximately 65 of whom are adults. This disease is now witnessing its first generation of adults, an incredible milestone, considering that the original designation of Spina Bifida as a childhood condition meant most children born with this condition did not experience life beyond youth. Today, a generation of adults living with Spina Bifida, some of whom are 65 years and older, is an achievement worth celebrating. But unfortunately, there remain many unmet needs and additional health challenges affecting this medically fragile population.

As individuals develop, their clinical needs change, as should the type of care, and often the type of medical professional they see for that care. One challenge is that while we have a coordinated system of care designed to treat children with Spina Bifida in the United States, there is no equivalent for adults. Thus, the "graduating child" enters a very fractured medical system where individuals struggle to find physicians willing to provide treatment. Unfortunately, many of these physicians lack basic knowledge of this complex condition, and thousands of young to middle-aged adults are left with few options other than to seek care in the emergency room—or continue to see their pediatric care team at Spina Bifida Centers, which are designed for children.
